To Cancel this Registration

You may cancel your registration at any time.

Please verify them right away by clicking the link. It will take you to a test zone and it will automatically show you if you are compatible or not.
 If you are on a work computer (esp. AHS) please contact IT to make sure they will support GOTOWEBINARS. In the past some employers will not allow access to it which means you need to use your own laptop.

Please follow these directions for both webinar sessions. It will be the exact same process for both. You will receive an e-mail confirming your registration from Calgary Sounds and not ATRA, so make sure that it doesn't get shunted by your e-mail's Spam Filter.

A few extra tips.... use headphones (or at least have them nearby).
Log in a few minutes before the webinar is to start.

During the Webinar you will be able to ask questions and vote if required for the AGM. Please note that these sessions will also be recorded.

If you are logging on as a group, please acknowledge in the chat window who is attending with you. Those attending will receive CEU's for the webinar.

If you are having problems with the audio, there should be a number to contact after you log in for technical support. Any questions, please e-mail me prior, and during the day of the conference you can text me at (403) 818-4316.
